10 JAN 1973

MEMORANDUM FOR: Deputy Director for Intelligence

Ed:

STAT With the completion of the 1972 series of Family Visitation Days, I want to express our appreciation for the support provided by two of your components. We are indebted to [redacted] and members of the CRS Library Staff, who gave of their time and efforts to make that facility one of the key parts of the program tour. I'm sure that the comments of visitors have emphasized how attractive the Library is, and we greatly appreciate its inclusion in the program.

Even more credit and appreciation goes to Mr. Arthur Lundahl and his NPIC colleagues for the impressive Cuban Missile Crisis display. You are well aware of its previous favorable reception by employees and official visitors, but I wanted to emphasize that its availability added greatly to the interest in the tour portion of the Family Visitation Days program.

[redacted]
John V. Coffey
